

Table of Contents

Foreword	9
Chapter 1	
Impacts of Climate Change on Electricity Generation and Consumption <i>Solveig Mimler, Ulrike Müller, Stefanie Greis, Benno Rothstein</i>	11
Chapter 2	
The Role of Cross-Disciplinary Models in Reducing the Intensity of Environmental Release – An Example of the Irish Housing Sector <i>Roy Manoj, Ellis Geraint</i>	39
Chapter 3	
Adapting the Modern City to New Challenges – Urban Agriculture as a Way out? <i>Frank Helten, Undine Giseke, Silvia Martin Han</i>	71
Chapter 4	
Policy-making in Climate Change – Experiences from the ASTRA Project <i>Walter Leal Filho, Franziska Mannke</i>	89
Chapter 5	
The Climate Stabilization Fund – Global Auctioning of Emission Allowances to help Forests and People <i>Michael Dutschke</i>	103
Chapter 6	
Social Learning on Climate Change among Regional Agents – Insights from China, Eastern Europe and Iberia <i>J. David Tàbara, Francesc Cots, Xingang Dai, Maria Falaleeva, Zsuzsanna Flachner, Darryn McEvoy, Saskia Werners</i>	121
Chapter 7	
Climate Change Mitigation Policies: Costs and Effectiveness <i>Dalia Streimikiene, Remigijus Ciegis</i>	151
Chapter 8	
Campaign Strategies by Environmental NGOs in the Negotiations on Climate Change <i>Evangelos I. Manolas</i>	169

Chapter 9	
The Role of Sustainable Buildings in Climate Change Mitigation	
<i>A.C. Warnock, C.G. Warnock</i>	183
Chapter 10	
A Spatially Explicit, Indicator-based Methodology for Quantifying the Vulnerability and Adaptability of Natural Ecosystems	
<i>Bálint Czúcz, Gergely Torda, Zsolt Molnár, Ferenc Horváth, Zoltán Botta-Dukát, György Kröel-Dulay</i>	209
Chapter 11	
Understanding Farming Community Concerns about Adapting to a Changed Climate	
<i>Frank Vanclay, Peat Leith, Aysha Fleming</i>	229
Chapter 12	
Risk Assessment and Local Government, Tasmania: Applying an Interdisciplinary Approach to Climate Change Adaptation	
<i>Melissa Nursey-Bray, Tony Ferrier</i>	245
Chapter 13	
Positioning Oneself and Others to Resolve Climate Change	
<i>Lionel Boxer</i>	265
Chapter 14	
Climate Change and the Impacts on Flood Events at the Fränkische Saale – An Interdisciplinary Case-Study	
<i>Michael Belau, Jane Korck, Hans Weber</i>	293
Chapter 15	
The Impact of Municipal Solid Waste Management on Greenhouse Gas Emissions in Estonia	
<i>Harri Moora, Viktoria Voronova, Alvina Reihan</i>	311
Chapter 16	
Conducting an Interdisciplinary Workshop on Climate Change: Facilitating Awareness and Adaptation in Sajama National Park, Bolivia	
<i>Karina Yager, Daniela Ulloa, Stephan Halloy</i>	327
Chapter 17	
Differences of Degree? – Public Opinion on Climate Change in a Cross-National Context	
<i>Sandra T. Marquart-Pyatt</i>	343

Chapter 18

The Campus Climate Challenge – Innovative Multi-Stakeholder
Approaches to Reducing Greenhouse Gas Emissions at Canadian Colleges
and Universities

Anjali Helferty, Amelia Clarke, Rosa Kouri 365

Chapter 19

Fostering Interdisciplinary Inquiry, Communication, and Action Among
Diverse Populations

Susan R. Kephart, Catherine A. Collins..... 389

Chapter 20

An Assessment of India's Efforts on Education, Awareness and Capacity
Building on Climate Change

Nitin Chaudhary..... 415

Chapter 21

Engaging Australians on Climate Change – The Role of Education and
Communication in Social Change

Estelle Gaillard, Jo-Anne Ferreira..... 425

Chapter 22

Linking Climate Change and Sustainable Energy Technologies to Develop
a 'People-Centred' Intervention Framework

Sam Wong..... 449

Chapter 23

Sensitivity of Bulk-Cargo Dependent Industries to Climate Change – First
Results of a Case Study from the River Rhine

B. Rothstein, A. Scholten, E. Nilson, R. Baumhauer..... 469
